About the HPV hub

Brought to you by IPVS -the global experts in human papillomavirus- the **HPV hub** is a new online space for those working to raise public awareness about HPV and to advance policy on HPV prevention and management.

HPV hub has been developed as part of the International HPV Awareness Campaign initiative. The hub provides a platform to connect and share learning and experiences across the growing global network of people committed to raising public awareness and advancing the elimination of HPV and related disease.

Members of the HPV hub can access and contribute to

- + HPV public awareness information and resources - including the International HPV Awareness Day Campaign toolkit.
- + Discussions focused on topics and communities relevant to you.
- + Webinars with our global network of International Awareness Day Campaign partners and IPVS thought leaders.
- + Public awareness, attitudes, opinion and communication research to support targeted and effective HPV awareness campaigning.
- + A global calendar of HPV-related campaigns, public relevant commemoration days, and associated communication resources.
- + Expert blog articles and opinion pieces.
- + Recorded IPVC sessions and chat rooms.

The HPV hub is accessible to official HPV Awareness Campaign partners and to IPVS members.

Register with the HPV hub and start connecting today <https://hpvhub.ipvsoc.org>
